

Overview

2022 TOMMBA SURVEY

The 2022 Top of Michigan Mountain Bike Survey consisted of 125 total respondents, both member and non-member.

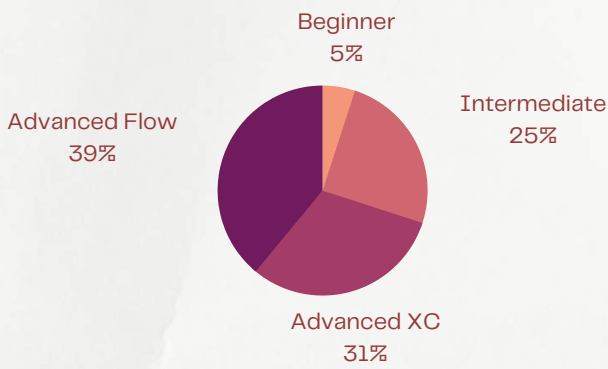

Who Responded?

Our survey respondents were 75% male and 25% female. Respondents ranked their skill levels as 33% expert, 65% intermediate and 2% beginner mountain bikers.

Satisfaction

More than 88% of respondents were mostly to completely satisfied with TOMMBA, and 96% of member respondents plan to renew their membership.

Trail Development

70% of respondents desire more Advanced trails featuring jumps, berms and smooth, endurance-focused forest paths. Another 25% of respondents would like to see more Intermediate trails featuring moderate climbs and small berms and jumps.

Communication

More than 77% of respondents are somewhat-to-extremely aware of TOMMBA's current and future trail building plans.

77% of respondents would like to receive email communications from TOMMBA
